

Fabric Requirements

Center Strip:

16 assorted $1\frac{1}{2}$ " sq.

Black Strips: 2 @ $1\frac{1}{2}$ " x $8\frac{1}{2}$ "

Solid (sides):

1 @ 3 " x $8\frac{1}{2}$ "

1 @ 2 " x $8\frac{1}{2}$ "

Sew the 16 $1\frac{1}{2}$ " squares together in two rows of 8. Add the black strips, then the solid strips. Resulting $8\frac{1}{2}$ " square.

This block will be a test of your $\frac{1}{4}$ " seam. If you are off a little bit that little bit will be multiplied by the 7 seams. When you have completed it, measure the strip. If it is not the full $8\frac{1}{2}$ " long, you can still use it as long as it is not more than $\frac{1}{4}$ " short. Just make sure that when you sew it to the black strips you leave an equal amount of "shortage" ($\frac{1}{8}$ "?) at either end so that the resulting piece has sufficient fabric to fit in the seam allowance when sewing it to the next block.
